

# Rookie Toddler™

*Rookie Toddler* celebrates a toddler's world of first words, first discoveries, and more. These books are the perfect size for little hands, and are bursting with the enthusiasm of a toddler just beginning to explore the world. Engaging text alongside adorable photos and illustrations introduce toddlers to familiar first experiences in these playful die-cut board books.

**Release Date: January 14, 2019**

**Pub Date: February 1, 2019**

\$6.95 (Board Book)

Age Range: 18 mos–3 yrs

12 pages, full-color photographs and illustrations

Trim: 6 1/2 x 6 1/2

Copyright 2019 / Children's Press®

*80 previously published titles*

**Features:**

- **Die-cut tabs** make the books easy for toddlers to hold and turn pages
- **Simple, engaging text** to read aloud to toddlers
- **Big, bold photos and illustrations** make each book visually appealing
- **Rookie Find It!** makes it fun for toddlers to reread as they look for "hidden" objects
- **Rookie Storytime Tips** help the caregiver emphasize key learning from the book
- **Early-learning concepts**—all based on a curriculum developed by early childhood experts

Sample spread from *Find and Point Birthday*

**TITLE HIGHLIGHTS**

- **The Animal Pokey:** Dance along with the funny animals doing "The Animal Pokey."
- **Find and Point Birthday:** Join the party and find birthday items from silly hats to sweet cupcakes.
- **Find and Point Easter:** What do we see on Easter? Look for adorable bunnies, colored eggs, and more.
- **One Potato, Two Potato:** In this humorous book, a classic counting rhyme comes to life.
- **Silly Monsters at Mealtime:** The silly monsters don't know what to do when it's time to eat. It's up to us to show them!
- **Silly Monsters in the Bath:** In this bath time book, toddlers show silly monsters how to scrub, rinse, and dry off.

# Side By Side

*Side By Side* is a delightful, new nonfiction series for little kids and grownups to read together. Each page in these books is clearly coded with two kinds of text: simple, predictable text for beginner readers, and more difficult text with important vocabulary and content for grownups to read aloud. The incredible photography and fascinating facts will amaze young children and adults alike. So go find a cozy place to curl up, and enjoy taking turns reading—side by side!

**Release Date: January 14, 2019**

**Pub Date: February 1, 2019**

\$26.00 (Reinforced Library Binding)

Grade Range: K

Age Range: 5

**Features:**

- **Patterned text** with picture support and consistent print placement to foster confident beginner readers
- **Horizontal format** makes these books ideal to read side by side
- **Incredible photography** that gets children excited to read and discover
- **Fascinating content** that will broaden children's knowledge and vocabulary
- Simple **graphs, diagrams, and charts** that are skillfully incorporated to introduce children to the type of reading they'll be doing in grade school and beyond!
- **Glossary** with pictures

This animal makes slime.

This animal makes slime.

Slime helps frogs breathe. Frogs breathe through their lungs—just like you. But they also breathe through their skin! If their skin gets too dry, air can't get through. Slime coats their skin and keeps it wet.

The slime that covers frog eggs keeps them from drying out.

6

This is a blobfish. It is pink, jiggly, and slimy. The slime helps the blobfish catch food, like an octopus, to eat. If the octopus tries to fight back, it can't get a grip on the blobfish's slimy, slippery skin. Gulp! The blobfish wins!

7

**Features:**

- **Hands-on activities** encourage readers to put what they’ve learned to work in real-life challenges
- **Debugging Challenge** feature asks readers to use their critical thinking skills to find out “what’s wrong” in different scenarios
- **Enticing visuals** are paired with informative graphic elements, showing young readers what coding looks like and what it can do
- **Robot characters** guide readers through the content, adding a fun and engaging element that draws young minds into the material
- **Glossary** with pictures
- **Digital content** for further learning on this subject available at [www.factsfornow.scholastic.com](http://www.factsfornow.scholastic.com)

Computers store files. They store words, pictures, videos, and games. Storage on a computer is measured in bits and bytes. Eight bits equals one byte.

The computer that helped put a man on the moon in 1969 had 64 kilobytes of storage.

Modern smartphones often have 64 to 256 gigabytes of storage.

*14 previously published titles*

**Features:**

- **Colorful photos and graphics** clearly offer an up-close look at nature's most fascinating creatures
- **Fact File** provides an easy reference for vital information about the animals' classification and basic habits
- **Large photos with callouts** explain how the animal uses different body parts to survive, and thrive, in its habitat
- **Fast Facts** throughout the book supplement information in the main text
- The **final chapter** describes the way each of these animals interacts with the human species
- **Family Tree** shows clearly and simply how the featured animal has evolved from, and fits into the wider category of, its order
- **Glossaries** explain difficult terms in a way that makes them easy to understand
- **Digital content** for further learning on this subject available at [www.factsfornow.scholastic.com](http://www.factsfornow.scholastic.com)

### Built for Speed

Cheetahs don't have the strength of the true big cats, but they do have a superpower—their speed! This sets cheetahs apart from all other land mammals and has helped them survive for millions of years.

It's estimated that cheetahs can achieve top speeds of up to 75 mph (120.7 km/h). How do they do this? Cheetahs have the longest and most flexible spine of any cat. While running, the cheetah bunches its feet underneath its curved spine. Then it lengthens its spine into a lunge, pushing off with its powerful hind legs. This unique running technique helps cheetahs cover up to 23 feet (7 meters) in one stride! Cheetahs also have swiveling hips and flexible shoulder blades. These enable the fast cat to change direction easily while running at full speed.

Cheetahs are amazing runners for other reasons, too. They have small, light heads and flat ribs, which improve their **aerodynamics** as they run. And the cheetah's **semi-retractable** claws act like cleats to provide traction.

**Fast Fact**  
Greyhounds, the world's fastest dogs, have similar body structure to cheetahs.
