In Our Neighborhood

In Our Neighborhood

Meet Emma and Theo, two best friends who share a neighborhood. Join in the excitement as these fun-loving friends meet a variety of community helpers and learn the ins-and-outs of their very important jobs. Each story is told from the point of view of either Emma or Theo in an engaging narrative that combines fiction and nonfiction text. Each book also includes a detailed map, a Q&A with a community helper, as well as tips and tools.

Release Date: January 18, 2021

Pub Date: February 1, 2021

\$6.99 (Paperback)

Grade Range: K–2

Age Range: 5–7

32 pages; full-color & black and white photographs and illustrations

Growing Up

Growing Up

Every living thing goes through changes as it grows. Tiny seeds grow into huge pumpkins, beautiful apple trees or tall sunflowers. Little eggs can turn into chickens or frogs. And beautiful butterflies begin life as fuzzy caterpillars. The books in the Growing Up series offer kids the chance to learn what happens at each stage of these life cycles. Engaging text, fascinating facts, and beautiful photos complete these books where readers will discover how the process of a new life starting is always fascinating.

A True Book™ — Digging in Geology

Release Date: January 18, 2021
Pub Date: February 1, 2021

\$7.99 (Paperback)
 Grade Range: 3–5
 Age Range: 8–10
 48 pages; full-color & black and white photographs, illustrations, maps
 Trim: 7 1/8 x 8 3/8
 Copyright 2021 / Children’s Press®

Previously Published: 285 titles in 53 subsets

Features:

- Uses **Next Generation Science Standards** as starting topics.
- **Find the Truth!** feature starts each book with two statements—one true and one false—which begins the inquiry process by **engaging readers to think proactively**
- An introductory spread provides an **important overview of the information** to be presented, always linking the global theme of the series, Geology, to the subject matter.
- Fascinating **sidebars** highlight important concepts, moments, and ideas.
- **Full-spread explorations of geological data** encourage students to analyze information for themselves.
- **Timelines** outline major events related to the discovery of these materials and concepts.
- **Think Like A Scientist** encourage readers to analyze information the way a real scientist would!
- **True Statistics** pages provide readers with fascinating stats about space, at-a-glance
- **Glossaries** explain crucial terms in a way that makes them easy to understand.

Pack up your gear and get ready to go on a dig! Learn how rocks, minerals, fossils, and crystals are formed, where to find them, how to identify them, what their properties are, and how people use them. With engaging text, fun facts, photography, infographics, art and lots of fun facts, this new set of books will unearth all the mysteries of the ever-changing ground beneath our feet and all of its amazing geological processes.

A True Book™

Previously Published Subsets

“This comprehensive four-part series focuses on the causes and effects of climate change. Divided into sections, the volumes explain the specific consequences of animal displacement, the adverse effects of greenhouse gases on the atmosphere and water quality, the evolution of major climate and weather disruptions over time, and more. The Greenhouse Effect outlines the history of industrial development and its impact on current climate conditions and also the economic and political implications for the past and present. Full-page photographs are complemented by easy-to-read blocks of text, including boldface words that might be unfamiliar to the reader. Those words, as well as other concepts, are defined in the back matter of each volume. An index and comprehension quizzes are included to ensure retention. **VERDICT** This series offers an up-to-date look at the effects of climate change and is a strong choice for any size collection.”

How would you Survive?

How Would You Survive?™

With the same quirky, humorous and irreverent approach to nonfiction as *You Wouldn't Want to Be/You Wouldn't Want to Live Without*, each book in this new series features an animal species picked either for its ubiquitous nature or for its level of endangerment. The books describe key aspects of the life cycle of each animal such as diet, reproduction and habitat. Illustrated with original art that will feature anthropomorphized animals to add character and expression, this series will provide really engaging content to young readers!
