

Alternative Energy

Grades: 3-5 | Ages: 8-10 | 48 pp.

We use energy every day. It fuels our cars, powers our cell phones, and provides light through the night. For centuries, people have relied mostly on fossil fuels such as coal, oil, and natural gas to provide this energy.

In this series, readers will find out what makes renewable energy sources such as solar, wind, water, and geothermal power safer and healthier than fossil fuels. They will also learn how these energy sources are likely to impact our future.

- 🌀 **Find the Truth!** feature starts each book with two statements—one true and one false—which begins the inquiry process by engaging readers to think proactively
- 🌀 Engaging **sidebars** highlight important scientific concepts
- 🌀 **Eye-catching images** show alternative energy in action
- 🌀 **Diagrams** help clarify how electricity is generated from different energy sources
- 🌀 **Timelines** show how people have used different energy sources throughout history
- 🌀 **Glossaries** explain difficult terms in a way that makes them easy to understand
