Letter from the Editorial Director

As a former elementary school teacher, I know firsthand that children need strong book choices available to them at every reading level. I am so proud to have started the Acorn early reader and Branches early chapter book lines at Scholastic, which bring quality books to young readers.

Aimed at 5- to 8-year-olds who are ready to progress in their reading, Branches books are geared towards newly independent readers. Each series is designed for kids to speed through them! These books feature cliffhanger chapter endings, and artwork appears on every page. Some series even use speech bubbles! Branches books build reading fluency and stamina.

Branches series help young readers transition from beginning-reader books to chapter books. With an array of series featuring riveting stories, fun characters, and engaging art, the Branches line has a series for every reader!

For kids who aren't quite ready for early chapter books, be sure to check out our Acorn early reader line. Acorn series have a unique, short-story format and feature easy-to-read text to help beginning readers build confidence.

Scholastic's Education Solutions team levels Acorn and Branches books, so you can trust that our series have all been created with their readers' needs in mind.

Thanks for helping us grow the next generation of lifelong readers with Branches books!

Katie Carella, M.Ed.
Editorial Director of Acorn and Branches
