Did you ever wonder which animals are the biggest... and the smallest?

- Grades: K-2
- Ages: 5-7
- 32 pages
- 8 x 8

PUB DATE: 2/1/2023

Kids can't get enough animal facts! Starting with the smallest animal in each group— amphibians, birds, fish, mammals, and reptiles—readers will want to read to the end as the ten animals listed get bigger and bigger. All the books in this brand-new series brim with colorful photographs and fascinating facts about the featured animals' body, diet, and habitat. Short blocks of text entertain and explain why some animals are very small while others are *really* big!
