

# North American Animals

The North American continent is filled with animals of all sizes and appetites. Some splash in rivers and swamps while others nest in trees and soar through open skies. Thousands of species roam the prairies, mountains, deserts, and forests that they call home. Meet your wild neighbors in this series for young readers!

6

**Identify a Northern Leopard Frog**

white underside
dark brown spots
raised lines along back

7

Northern leopard frogs have dark brown spots on their backs and legs. These spots have a white or yellow border.

Raised lines run down their backs. But their bellies are smooth and white.
